

# USB Serial Interface & Transceiver

ERUSB-SC

energy conservation - home and office

## Overview

Echoflex's ERUSB-SC Serial Interface provides access to EnOcean transmissions from a PC or laptop computer. Plugging in directly to a computer, the ERUSB-SC is the interface needed for PC based applications to monitor and manage EnOcean devices.

A button switch provides quick access to a EnOcean switch that broadcasts PTM telegrams. Use the switch to activate lights and other loads.

On-board leds indicate EnOcean telegram traffic and a power led provides operational status.

The ERUSB-SC comes with a 1M USB cable and USB type A to USB mini type B adaptor.

## Specifications

EnOcean Equipment Profiles

EEP: 05-02-02 Light & Blind Control

Communications 315 MHz EnOcean radio

Power USB 2.0 Port

Weight 1.2 oz. (34 gms.)

Dimensions 3.2"x 2.1"x 0.7"  
(82x54x17 mm)

Antenna Integrated

## Agency Listing and Compliance

Radio Frequency FCC Part 15.231

IC RSS-210
