

DECORATOR STYLE SWITCH

PTM-265

Overview

Our Decorator style switches use a mechanical energy harvester that is powered by the touch of a finger and is completely battery free.

These switches can be used with any of Echoflex's lighting control solutions for On/Off and dimming control. They are available in either single or dual paddle in almond or ivory or in dual paddle black. All colors match Leviton's correlating cover plate colors (purchased separately). Mount with flush mounting plate on any surface that is convenient (smooth surfaces for double sided tape (not included) or drillable for screw mounting).

Create multi-input switching strategies for 3, 4 or up to 20 way switching with wireless Decorator style switches.

Accessories available to order include single, two and three gang flush mounting plates and Antimicrobial Silicone Sleeves.

Note: For switches in white or gray or single black -see our PTM365 data sheet.

Equipment Profiles

Single/Dual Rocker

EEP: F6-02-02 Light and Blinds Control

Agency Listing & Compliance

902 MHz models

FCC Part 15.231 Remote Control Transmitter
IC RSS-210

868 MHz models

CE Marking

Technical Specifications

Operating Mode On/Off, Dimming
Power Generation Electrodynamic Energy Harvester

Communications

Radio Frequency 902 MHz (U), or 868 MHz (Y)
Antenna Integrated whip
Transmission Range 24m (80 ft) - commercial office space (typical), up to 100 m (330 ft) line of sight

Mechanical Specifications

Operating Temperature -25°C to 65°C (-13°F to 145°F)
Relative Humidity 5% to 92% RH (non-condensing)
Weight 85 g (3 oz)
Dimensions 115 x 71 x 20 mm (4.5 x 2.8 x 0.8")
Life Cycle 50,000 actuations
Mounting Flush mounting via screws or double sided tape (not supplied)
