

# Echoflex Installation Guide

## Elaho Rack-mount Kit

---

### Overview

This guide provides instruction to install the ElahoTouch rack-mount kit (part number 7186A1117) into an equipment rack.

This kit includes the ElahoTouch rack-mount panel and an installation hardware kit which includes mounting screws, washers, and rail clips.

### Installation

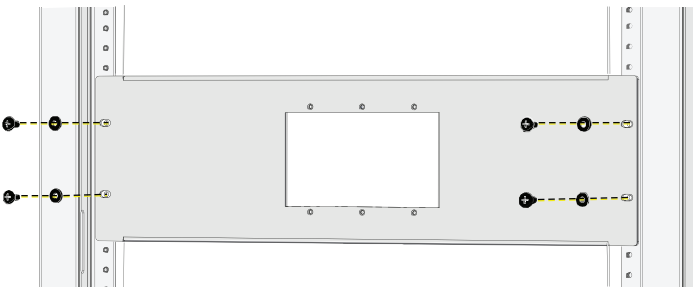

---

**Note:** *Installation should follow local codes and standard practices.*

---

1. Attach the ElahoTouch rack-mount panel to the 19" rack enclosure using the four screws and washers provided. If needed, use the provided rail clips.

2. Reference the *ElahoTouch Controller Installation Guide* for instructions to install the ElahoTouch mounting collar and controller to the rack-mount panel. All wiring instructions are also included in the referenced guide.
  - Ensure all wiring is installed correctly. The ElahoTouch Controller is supplied with an installation kit which includes the necessary hardware and wiring termination supplies.
