

# Echoflex Installation Guide

## ElahoTouch Rack-mount Kit

---

### Overview

This guide provides instruction to install the ElahoTouch rack-mount kit (part number 7186A1117) into an equipment rack.

This kit includes the ElahoTouch rack-mount panel and an installation hardware kit which includes mounting screws to attach the panel to a rack, washers, and rail clips.

The ElahoTouch Controller Mk2 is supplied with an installation kit which includes the mounting collar and all necessary hardware and wire termination supplies to complete the installation.

### Installation

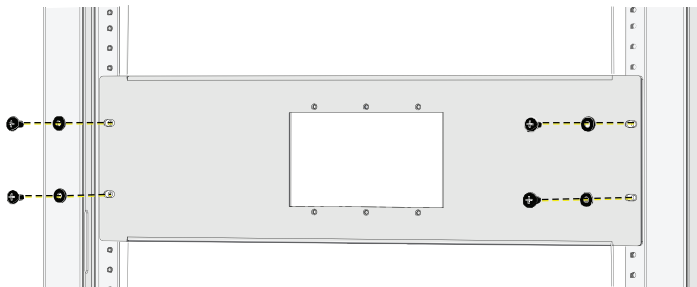

---

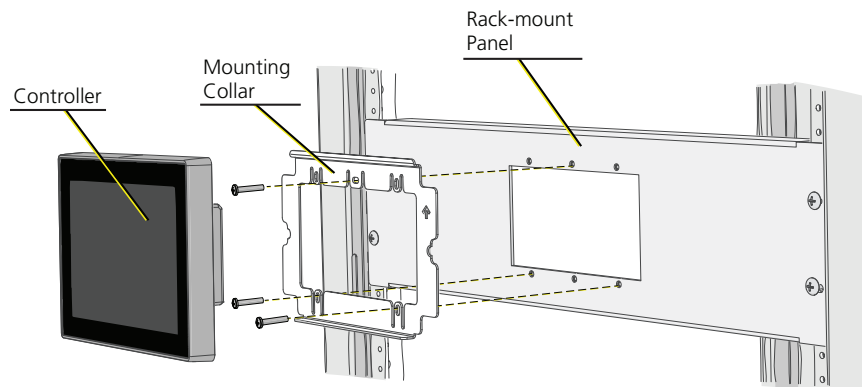

**Note:** *Installation should follow local codes and standard practices.*

---

1. Attach the ElahoTouch rack-mount panel to the 19" rack enclosure using the four screws and washers provided. If needed, use the provided rail clips.

2. Align the mounting collar to the rack-mount panel with the arrow directed up (as shown below), and secure it in place using three mounting screws (provided with the controller).

3. Reference the *ElahoTouch Controller Mk2 Installation Guide* for detailed instructions on that product.
