

Echoflex Solutions Release Note

LED Fixture Controller ELED1

Product Line:	LED Fixture Controller ELED1
Description:	Version 3.2.1 Firmware
Effective Date:	2022-08-08

Purpose

The purpose of this release is to align the channel assignment of the ELED1 for consistent architecture across all Echoflex power pack controllers. No action is required.

For any questions relating to the contents of this release or the behavior of this firmware, please contact Echoflex Solutions using the information at the bottom of this page.

Availability

The new LED Fixture Controller, model ELED1, ships from the factory with the current firmware v3.2.1. Field upgrade of the firmware is not required or possible.

Documentation

Please keep this release note with your *LED Fixture Controller ELED1 Installation Guide* for descriptions of the newest features, changes, and bug fixes. Manuals are in portable document format (pdf) and are available for download at [echoflexsolutions.com](https://www.echoflexsolutions.com).

Issue Corrected in v3.2.1

- The firmware was adjusted so that the ELED1 channel assignment is consistent with the suite of Echoflex power pack controllers, where the first channel is "1" and not "0".

Key Enhancements in v3.2.0

- Provides shared occupancy control to maximize energy savings. This feature can be used to coordinate large open spaces that are segmented into zones.
- Redesigned hardware power supply, model D.

Key Enhancement in v3.1.0

- Supports the Keycard Switch Station (KSS) and Magnetic Contact Sensor (MC-31) for use in hotel applications to capture the occupied state while providing manual dimming and switching.

Compatibility

This release is compatible with the following Echoflex Solutions software and hardware:

- Garibaldi Pro software (device database update only)
- MBI Multi-Button Station
- MSS Multi-Scene Station
- PTM Paddle Station
- ETRH and ETRS Wall Stations
- KSS and PTM365KCA Keycard Stations
- ROS, RCS, and MOS Occupancy Sensors
- RVS Vacancy Sensor

Echoflex Solutions Release Note

ELED1 v3.2.1

- OWS Wall Switch Sensor
- WTC Wireless TimeClock
- MC-31 Magnetic Contact Sensor
- TAP and FLS Light Sensors
- EEI Elaho-Echoflex Interface
- ERM-DA Active Circuit Transmitter
