

Echoflex Solutions Release Note

Power Load Controller ELEDRH

Product Line:	Power Load Controller ELEDRH
Description:	Version 3.1.1 Firmware
Effective Date:	2022-04-22

Purpose

The purpose of this release is to correct an error in v3.1.0 firmware for the ELEDRH 240–347 high-voltage model.

For any questions relating to the contents of this release or the behavior of this firmware, please contact Echoflex Solutions using the information at the bottom of this page.

Issue Corrected in v3.1.1

The firmware was adjusted so that the Power and Learn LEDs are configured in the proper order.

Availability

The new ELEDRH ships from the factory with the current firmware v3.1.1. Field upgrade of the firmware is not required or possible.

Documentation

Please keep this release note with your ELEDRH Installation Guide for descriptions of the newest features, changes, and bug fixes. Manuals are in portable document format (pdf) and are available for download at [echoflexsolutions.com](https://www.echoflexsolutions.com).
